PRO LEAN – Diet Aid and Energizer - The ingredients in ProLean were carefully chosen for their ability to help you get the most out of your diet and exercise program by helping to boost metabolism, to increase energy levels, and to control appetite. At the core of ProLean Extreme is our exclusive blend of rare botanicals that have been selected for their high concentration of biogenic amines natural compounds that are able to switch on the body's fat burning process while switching off appetite. We've drawn upon such healthful sources of biogenic amines as Chinese cinnamon twig, the Thai culinary spice galangal (a member of the ginger family), pure green tea and Indian Cyperus root. And since caffeine has been shown to potentiate the action of biogenic amines, we've also included the amount of caffeine typically found in about two cups of coffee Rounding out the formula is a blend of premium "ginsengs" that can help reduce the feelings of fatigue that frequently wear down dieters.

LEAN IMAGE CARB BLOCKER combines a cutting edge blend of research proven natural herbs and ingredients designed to help reduce cravings, while preventing carbohydrates from being digested and converted into sugar that eventually gets stored in the body as fat. Lean Image Carb Blocker helps you reduce starch calories by blocking alpha-amylase, the enzyme in your digestive tract needed to break down (digest) the starch molecules contained in the foods you eat, to become glucose. When Lean Image Carb Blocker inhibits this process; the undigested starch and its calories simply pass through the body undigested. This blocking of starch calories helps you lose weight, greatly helping you maintain your weight for years to come.
